

VOLUNTEER INSTRUCTIONS FLOATER

Thank you for volunteering your time and sharing your talents.

You have been assigned the very important role of FLOATER. Some decisions regarding placement of volunteers can't be made until days before the event or the day of the event itself. We will depend on your being there, but we just aren't sure where you will be assigned at this time. We will inform you of your placement as soon as we know where that will be. Keep in mind, this could be the morning of the event. We appreciate your flexibility in helping us to make this the best experience possible for the students.

We will do our best to assign you prior to the day. If we must wait until the morning of the program, we will train you at the school.

When you arrive at the school, you will be taken to your assigned activity by JA staff where you will be trained. Written instructions will be provided as well and a QR code which will allow you to preview the video training, if necessary. JA Staff will be available during this time to answer questions.
